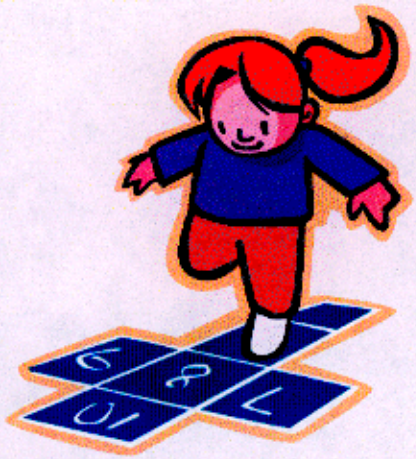
Protocol #410-2007

Does your child have Autism?

IRB
APPROVED
ON 10/17/07 cgd



We are looking for children, ages 4-7, diagnosed with Autism to participate in a study of motor and cognitive development.

This study may help researchers understand how the brain develops differently in people with autism and related developmental disorders.

Problem solving skills and motor abilities will be assessed. Parents will be interviewed

Children will receive a small gift for participating.

Please contact Dr. Hass at (352)-392-0584 ext. 1294 (cjhass@hhp.ufl.edu) or Dr. Radonovich at (352) 392-7928 (kradonov@psychiatry.ufl.edu)
